

UNI-OIL AGL TRANSPETRO

Inner layer made of polypropylene, fabric and polyester

Application:

UNI-OIL AGL TRANSPETRO is a lightweight and highly flexible composite suction and discharge hose designed in accordance with EN13765 for the transfer of fuels. It can be used in fixed installations as well as on railroad and truck tank cars. The hose can be fitted with dedicated unions according to customer requirements.

Flow media:

fuel

Marking:

The tape is printed with the name of the hose, the standard to which it was manufactured, the size, the date of manufacture, the temperature and operating pressure range, as well as the manufacturer's warning to read the instructions for use and the chemical resistance sheet.

Standard:

EN 13765

Technical specifications:

INDEX						
no.	mm	bar ¹	bar ¹	estimated mm	bar	estimated kg/m
-	63	10	40	180	40	2.10
-	75	10	40	205	40	2.50
-	100	10	40	265	40	2.60

1 - Pressure based on room temperature / High pressure and/or temperature lead to reduced component life.
